

Designer Colors

Our Designer fabric is a stitch bond 100% recycled polyester with a soft finish. The acoustical absorbing fabric features darker accent colors to highlight the weave pattern of the room divider panels. Due to its strength, using tacks, pins, and staples to secure items to the fabric panels is accepted. The Designer fabric collection features an array of color choices from neutrals to vibrant fabrics to best accent your design space.

Designer fabric colors are available on the following products: [Standard](#), [WALLmount](#), [Heavy Duty](#), [Light Duty](#), [Study Carrels](#), [Healthflex](#), [FlexFit](#), [Display Towers](#), [Acoustical Wall Panels](#), [GSA](#)

Excel Colors

Excel colors have an even texture throughout the fabric to create a uniform color appearance. The stitch bond 100% recycled polyester fabric is designed to withstand the use of tacks, pins, and staples on its surface.

Excel fabric colors are available on the following products: [Standard](#), [WALLmount](#), [Heavy Duty](#), [Light Duty](#), [Study Carrels](#), [Healthflex](#), [Display Towers](#), [Acoustical Wall Panels](#), [GSA](#)
